Default SLA Domains

Rubrik CDM has three default local SLA Domains, Gold, Silver, and Bronze.

These policies have the archival policy and the replication policy disabled, do not have a Snapshot Window, and do not set a Take First Full Snapshot time.

Name	Gold	Silver	Bronze
Hourly	Create snapshot every 4 hours Retain for 3 days	Create snapshot every 12 hours Retain for 3 days	None
Daily	Pick the last successful snapshot every day and retain it for 32 days	Pick the last successful snapshot every day and retain it for 32 days	Create snapshot every day and retain it for 32 days
Monthly	Pick last successful snapshot every month and retain it for 1 year	Pick last successful snapshot every month and retain it for 1 year	Pick last successful snapshot every month and retain it for 1 year
Yearly	Pick last successful snapshot every year and retain it for 2 years	Pick last successful snapshot every year and retain it for 2 years	Pick last successful snapshot every year and retain it for 2 years
